This diagram shows a cross-section of a multi-layered structure. A central core consists of several thin layers labeled 10(p), 11(p), 12(p), and 13(p). This core is surrounded by a thicker layer 14, which is further enclosed by a layer 15. The entire assembly is supported by a base structure 1. On the left side, there are additional layers labeled 5(n), 6(n), 7(n), 8, 9, and 16. A vertical line 2 is shown on the far left, and a horizontal line 17 is at the bottom.
